MRCOOL® SmartHVAC App: Your Energy Saving Partner.
## Making Smart Thermostats Even Smarter.

Hassle-Free Registration

Simplify thermostat registration with the MRCOOL® SmartHVAC app - guided prompts and a user-friendly interface make customization effortless.

Personalized Thresholds for Ultimate Comfort

Boost convenience with the new threshold templates and tailored options to align with your goals for efficiency, comfort, or a blend of both.
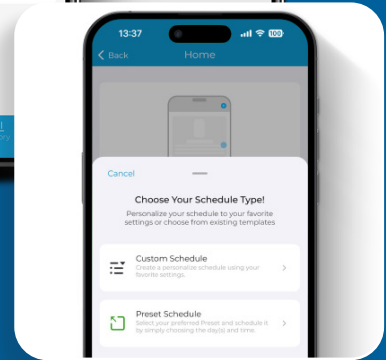

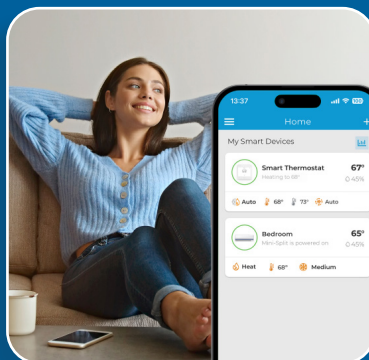

Smart Schedules Aligned with Your Routine

Set the right mood with preset schedules like Home, Away, and Asleep, or customize your own schdule for a perfect home environment.

Smart Energy Management

Enhance cost savings by actively monitoring your heating/cooling usage patterns to achieve optimal efficiency.
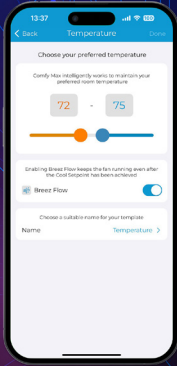

One App for All Your HVAC Systems

MRCOOL SmartHVAC app offers an all-in-one solution to control your central and room air conditioners for enhanced control and savings.

DIY-Friendly Installation

Get your thermostat up and running swiftly with a hassle-free DIY installation process.

Avoid Overheating and Overcooling with Comfy Max

Customizable Intelligence

Comfy Max turns your MRCOOL® Smart Wi-Fi Mini-Stat into a true smart thermostat for your MRCOOL® mini-split. Using AI-based algorithms it can adjust the temperature setpoints, fan speed, and mode of the mini-split to maintain your desired room temperature, preventing overheating or overcooling. Simply set your desired heating and cooling setpoints and the MRCOOL® Smart Wi-Fi Mini-Stat will take care of the rest.

MRCOOL® Heat Pump

MRCOOL® Link is a cloud-based platform designed to maximize savings by pairing an existing air source heat pump with integrated controls and reducing reliance on fossil fuel-based heating sources.

Using MRCOOL® Link, user can:

- ■ Link multiple HVAC units, including central or mini-split heat pumps and fossil fuel heating systems (furnace/boiler).
- ■ Minimize the usage of fossil fuel heating (furnace/boiler).
- ■ Maximize the utilization of central or mini-split heat pumps.
